MASTER DALI CASAMBI This product is a DALI master device for CASAMBI monomaster applications, controlled by Bluetooth, developed to control DALI lamps, from mobile devices and Casambi apps. It allows you to connect up to 64 DALI lamps on track, divided into up to 8 groups (4 on a Casambi Classic network) or in broadcast all at the same time (depending on the profile loaded). The control of the lamps is carried out via group DALI commands: each lamp will respond to the commands related to its assigned group. Fixtures are available for operation: in broadcast, 8-group control, 4-group control with TW command. The device has a power consumption of 8W and an output current of 180mA.
