Power Supply 48V DC

These two power supplies which supply the tracks with 48V voltage, 100W or 250W, are to be used when you also want to integrate the power supply into the track. These power supplies are equipped with a 4-pole cable with a length of 3 m. Two poles are for connecting the power supply to the 220/240V AC network and the remaining two poles are to be used for a possible connection to the DALI line.
